

# APPNOMU DIGITAL

MARKETS 

## Introduction:

AppNomu Digital Markets now powers more than 25000 websites with hosting, domain registration and digital marketing reaching more than 2.3M website users as of the analytics reports 2024, August by Google Analytics a website performance tool for measuring analytics

## Expand Your Reach:

With our marketing tools such bulk SMS, WhatsApp marketing, Email Marketing and push notification. We are able to expand your reach by providing you the best affordable and scalable technology to help you run your business website, mobile application without breaking the bank. At an affordable cost, you can reach more than 1M customers under our products and services.

## Drive Traffic

It is not only having a website or mobile application or a professional UI/UX, It is about having good amount of traffic that can easily convert into leads and sales. We help more than 3000 website drive traffic through creating engaging content and adoptive content that helps you to drive more organic traffic at an affordable price with out hassling with Google Ads.

# ENGAGE & CONNECT

## Conversions

Every website visit or traffic should be able to lead to conversion. We have seen thousands of websites with more traffic but with less conversions and this has lead to negative ROI. We are experts in creating optimized content to help your website attract more traffic and we will make sure it is just not the number but conversions so that your sales can boost and more than 200 clients have seen an increase of their conversions with us by more than 45%

## Power Up Your Business WITH DIGITAL MARKETING

Businesses thrive depending on majorly three things, product quality, customer service quality and product pricing. However without the customers, the custom support team will be of no need and your products or services won't be consumed. Embracing digital marketing with us, helps you and your brand to reach more clients, as well giving your product team to focus more on products than marketing.

## Cost-Effectiveness

# WITH OUR MARKETING

Other tools would either charge you a lot of per month and here at AppNomu Digital Markets, we believe you must only pay for what you use unless otherwise and all products and services such bulk messaging, WhatsApp marketing, Email Marketing, does not require heavy subscription rates per year or per month, you can simply top up your account and you will only be charged per use of such a service giving you more room to understand your costs, and your ROI. Don't you feel to use the solution anymore after top-up? You can get your full refund of the available credit top-up balance .

## Access to Advanced Tools

# AND TECHNOLOGY
