4th November 2025

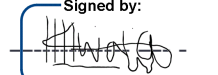

Dear team,

We appreciate your efforts and hard work to see that we are serving more than 25000 clients with our resources and products ever since we started and we are truly happy for the spirit you always show us towards your leadership, your roles and your responsibilities at AppNomu.

As we all know that we should be compliant, we are seeking your attention to provide the required information such as NSSF number, TIN number and there will be a verification process to verify the authenticity of the National ID and the actual person intended.

We therefore seek your participation in providing such information to your supervisors and also the new contract will be sent since the old contract was read as tax exempt which has been halted. All employees will receive payment deducted by tax and NSSF.

Sincerely,

Signed by:
